

Prison — staff corruption priced honestly

PRISON_PHONE_BRIDGE on/off, same checkout, same seed. Deep staff services (clean sheet, racket cut, bought statement, a name off the log) now need a line to the street; the moments of blindness stay priced in smokes.

Measurements

cigsSpent is measured across the press. serviceInPool draws econ.pickOffer up to 400 times and asks whether a service ever comes out. quoteGap is 0 on a beat where nothing was sold.

01 The clean sheet, holding only smokes

Before: a career-ending favour bought with tobacco. After: the once-per-officer explanation of why it is not.

02 Renting ten minutes on a handset

Is PHONE TIME actually reachable through the real stock pool, and does the seller state his terms?

03 The racket cut, with the window open

The rented line lets the deep service through — and the officer says once where the money really landed.
